

SHE'S GOT CLASS – LYRICS

She's got watermelons, they're the perkiest in town the perkiest in town  
Well-manicured talons, the highest heels to be found

***She's got class, she's got class***

***Skirt so short you can see her little assorted confectionery***

***She may catch a fat cat***

***Whose only goal in life is a little fluff around the edges***

***Girl has got some class***

Beauty is skin deep, plastic isn't cheap  
Gold digging business is booming don't you see

Go find sugar daddy to buy the things she needs, the things she thinks she needs  
All this high maintenance, lord knows it don't come for free

***She's got class, she's got class***

***Skirt so short you can see her little assorted confectionery***

***She may catch a fat cat***

***Whose only goal in life is a little fluff around the edges***

***Girl has got some class***

Repeat chorus x 2
