

The Long and Short of It – A Little Love Will Fix You Up

When you feel your world will never ever be the same
There's no way you could get over the break
Stealin for a healin left you feelin that you can't trust
Oh a little bit O' love
A little love will fix you up

If a broken heart has got you in a state of shock
From ridin on a wild one that threw you off
All the leavin's got you grievin and seein
Through a cloud of dust
Oh A little bit O' love
A little love will fix you up

Sometimes good things fall apart
so better things can fall together
gotta live and let it go
to get on to somethin better

All the clouds are fadin to a brighter day
Got a brand new start the pain washed away
Off the ground newfound rebound back in luck
Oh A little bit of love
A little love will fix you up
Chorus
Solo chorus

When you felt your world would never ever be the same
There's no way you'd get over the break
Stealin for a healin left you feelin but now you trust
Oh a little bit O' love
A little love fixed you up
Yeah a little bit O'love
A little love fixed you up
