

Tony Kennelly – Water Rising

Waters rising hopes washed away Streets are rivers know we can't stay Houses crumble  
houses crumble houses crumble  
Beneath that force Of the Wilson River Keeps  
Rising rising  
All the Northern rivers keep rising

On a rooftop chivering and cold Won't get that high so we were told The boats are  
coming the boats are coming hand on tight the boats are coming.

Still the water keeps rising Rising  
Still the water keeps rising Rising.

Every cloud Every Thunder crack Every raindrop takes me back Need to get to higher ground

The Dirty River has taken our town The Dirty River has taken our town Instrumental.

Every cloud Every Thunder crack Every raindrop takes me back Need to get to higher  
ground The Dirty River has taken our town

The Dirty River has taken our town The boats are coming the boats are coming

Just hang on tight The boats are coming

Still the water keeps rising

Still the water keeps rising Rising  
Rising Rising

Rising
