Darren Colston – Call It Australia

Albury singer-songwriter, Darren Colston, is back with a 5th single, Call It Australia, from his recently released album, Ruckers Hill.

Call It Australia paints a vivid picture of the varied landscapes, cultures and all the various peoples who make up this fabulous country of ours. It captures the moment while celebrating all that is timeless about our part of the world.

At a time when Australia is searching for its voice, Call It Australia puts a voice to what makes Australia Australia.

If you have Aboriginal heritage in your blood; if you descend from the white settlers of the convict era; if you come from that wonderfully colourful bunch of Europeans who came after World War 2; or if you were subject to persecution in another country and came here as a refugee, this song is about you.

And if you love this wide brown land we call Australia, in any small amount, this song is for you.
