

This Old Truck (Written By Andrew Vacopoulos (AKA Jax Tonic) & Ronnie Joudo)

LYRICS

She never broke, She never failed, Always stayed tough as nails.

Lovin' me right up till the end

And always shined bright at night, Under those back road lights
driving around with my best friend.

Yeah, I never wanted this to end.

'Cause we were...in an out of back roads

we went up and down this town

We've been through hard times together and she never let me down

Goodbyes don't come easy and it sure ain't easy for me...

Even though we've been through some rough

it's goodbye to this old truck

Years go by and you realise, how quick time just flies

Suddenly it all comes to an end

If I could turn back the clock, have the chance to bring her back

and get her started up again

To do all those thing we did back then...

'Cause we were...in an out of back roads

we went up and down this town

We've been through hard times together and she never let me down

Goodbyes don't come easy and it sure ain't easy for me...

Even though we've been through some rough

it's goodbye to this old truck

She had a lot of Miles but her heart was still young She
never let me down right or wrong
Yeh, she always gave her all

'Cause we were...in an out of back roads we
went up and down this town
We've been through hard times together and she never let me down Goodbyes
don't come easy and it sure ain't easy for me...
Even though we've been through some rough
And though we've been through so much
it's goodbye to this old truck it's
goodbye to this old truck
