

## **Sandy Louise – LYRICS Cry Out My Name**

Well mama sent me off to the circus to play  
Saved her money for another day  
I played their games while they were fun  
Till the real ones had begun

Married thrice to dirty men  
I Killed the last one with my hands  
In defence is what they say  
Perhaps they'll learn the truth one day

I'm no lady, you will see  
I'll be where all the brave men can't be  
They don't dare look me in the eye  
I'll finish them off before they cry

I've wrapped the boys around my finger  
Names for every place I linger  
You think you've seen me then I'm gone  
With your cattle in the morn

Send the trackers bring em down  
I'll leave nothing to be found  
Search every corner of Wollemi  
Leave with your hands and pockets dry

I'm no lady, you will see  
I'll be where all the brave men can't be  
They don't dare look me in the eye  
I'll finish them off before they cry  
Cry out my name

Jumped off the train to hell and back  
Left the troopers on the track  
They'll keep looking I suppose  
I'll steal the cattle underneath their nose

I'm no snitch no I'm no whore  
I get the job done you keep score  
They'll read about me in their books  
You'll all remember me I'm sure

I'm no lady, you will see  
I'll be where all the brave men can't be  
They don't dare look me in the eye  
I'll finish them off before they cry no

I'm no lady, you will see  
I'll be where all the brave men can't be  
they don't dare look me in the eye  
I'll finish them off before they cry

Cry out my name  
Cry out my name  
Cry out my name  
Widow Hickman
