

Heavy On Me – Lyrics

Written by: Andy Penkow, Shawn Moore, Doug Folkins

Verse

I gotta admit I'm worried about you lately my friend
You smile any say you're doing alright
But I can tell you ain't being yourself and there you go again
Closing down another Tuesday night

And I know you'd never ask for help
But I can see you're going through hell

Chorus

So put the heavy on me
Yeah whatever you need
I can carry the load when you got nowhere to go
Looking for answers feeling scared and alone
So take a minute, just breathe
I got the weight so put the heavy on me
Put the heavy on me

Verse

That white picket fence you've built is starting to fade
Putting down roots but are you digging deep enough
You're stuck between hope and shame
She's thinking about her first last name
Before it comes to push and shove

Chorus

Put the heavy on me
Yeah whatever you need

I can carry the load when you got nowhere to go
Looking for answers feeling scared and alone
So take a minute, just breathe
I got the weight so put the heavy on me
Put the heavy on me
Put the heavy on me

Bridge

When your world's closing in
When you just need a friend

Chorus

Put the heavy on me
Whatever you need
I can carry the load when you got nowhere to go
Looking for answers, feeling scared and alone
So take a minute, just breathe
I got the weight so put the heavy on me
Put the heavy on me
And put the heavy on me
