### ***Keely Ellen – Redhead***

Redhead is a personal reflection by Keely, drawing inspiration from her own experiences of facing bullying due to her distinctive red hair. The song encourages listeners to embrace their differences rather than hide them, promoting a message of self-love and empowerment.

The lyrics of Red Head delve into the deeper meaning behind the song, touching on Keely's journey of overcoming adversity and finding strength in her uniqueness. Collaborating with the talented producer and multi-instrumentalist Benjy Pocock of Vibetone Recording Studio, who played all the instruments, the single promises a captivating blend of sassy but heartfelt lyrics and musical prowess.

"I've been wanting to do this for ages, and it's all finally coming together," Keely said.

"Red Head is a song that really sums me up well, putting my character across and allowing me to introduce myself through my music."

With infectious vibes and relatable themes, she hopes the song resonates with a wide audience, whether they share the experience of having red hair or connect with the broader message of embracing individuality.
