### ***Victoria McGee – Heartbeat***

Victoria McGee makes a triumphant return to country music with her brand new single Heartbeat.

Diagnosed with end stage heart failure and given just 18 months to live, McGee was told she would need the life saving gift of a Heart Transplant in order to survive. She received that gift in 2019, with her music being a major driving force in her recovery.

Her comeback single "Heartbeat" was penned in Nashville by a talented US writer McGee met in a bar on Broadway whilst performing at CMA Fest.

"Heartbeat" embodies that feeling of country freedom, a love story of resilience that stands the test of time, capturing the emotion of how love in all it's forms is the life-force that makes our "Heartbeat".
