

## **Jake Lynch - Country Dream LYRICS**

A long time ago, I put a guitar in my hand.

Realized that I had a song to sing.

So I took it to Australia dreaming about the world,

Hooked up the Caravan and I hit the open road.

We can go west and we can go South

It don't matter anyhow.

There's a big wide road. No matter where we're Going to.

You can jump in Beside me

We can get on down the Highway

Chasing the road and the Country music Dream.

Listening to my hero's, Every mile along the way.

Living a drifters Life, Not a dollar to my name.

When Play my show tonight hear a Country tune,

I Wonder if Slim A Fire of Gidgee Coal

Every Since IT ALL Began. I had a Waylon Song in me,

And he'd help me through my rough and rowdy days.
