## ***Kevin Sullivan – Threeways - ALBUM***

Kevin Sullivan had an amazing vision for his second original album **Threeways**. He wanted a feeling of being suspended as he navigated the crossroads of his life. Mastered by Grammy Award winner William Bowden, **Threeways** is an Album of songs about family, life, people, career, love and death.

If you're a fan of Johnny Cash, Bruce Springsteen Paul Kelly and Leonard Cohen well Sullivan's new album **Threeways** is for you. **Threeways**, features Kevin Sullivan collaborating with several songwriters, bringing a variety of soul and essence to his songs, each with their distinct flavour that enhances and builds on Sullivan's unique style. Sullivan's Father, a Dixieland jazz pianist is ever present with the infusion of brass and keys in many of the songs, including "The Piano Player" written about his Dad and "On The Run".

From the Duet "High Country Snows" Kevin wrote with Bill Chambers, "That's What It Means" the first song he has written with his wife Belinda Sullivan, "Dianne" co-written with Matt Scullion and the opening track "Journey" co-written with Peter Santella, **Threeways** will make you understand why Kevin Sullivan is carving out a distinctive place in the Australian music landscape.

**Threeways** will have you singing along with "The Stroll", the line dancing song that has a huge following not only throughout Australia, but also in South Korea, to the emotional rollercoaster of "Brother" and "Get Your Affairs In Order" about human frailty. Overall, **Threeways** will make you realise there is so much substance and authenticity to Sullivan, who writes about real people, places and causes that have inspired his music
