

Anne Fraser – Heart of Texas (LYRICS)

Anne Fraser - David Carter - Merelyn Carter - Kath Stewart

V1

From the land down under where the gum trees sway I left my home for the USA
Guitar in hand, stars in my eyes Im proud to sing my songs under Texan skies

Chorus

Can't believe that I'm deep in the heart of Texas Where the soul of country music
comes to life Where Kenny and Waylon and Willie Wrote the songs that will never
die I can't believe that I'm in the Heart of Texas

V2

With the red white and blue the cowboys ride Pick up trucks, rodeo's and Texas pride
Wide open plains where the longhorns roam This music that we share it feels like
home

Chorus

Can't believe that I'm deep in the heart of Texas Where the soul of country music
comes to life Where Kenny and Waylon and Willie Wrote the songs that will never
die I can't believe that I'm in the Heart of Texas

Bridge

With every strum my heart unfolds Into songs that shine like gold I love the music
and I love this place It's gotta be a romance with the lone star state

Chorus

Can't believe that I'm deep in the heart of Texas Where the soul of country music
comes to life Where Kenny and Waylon and Willie Wrote the songs that will never
die I can't believe that I'm in the Heart of Texas
