

UNDERGROUND – No PROMISES

Shot like tiny daggers flying through my heart

Lost like driving with no headlights in the dark

I've seen better days I know it's true

Find my purpose when I'm with you

Numb but the whisky doesn't wash away the pain

Hurt like nine inch nails are running through my veins

I've seen better days I know it's true

Find my purpose when I'm with you

No lies, cause time flies

We both know, we both know baby

Cold eyes won't melt away, the fear won't disappear

So I go underground

Crawl into the safety of your loving arms again

Fall in love with the idea but not the plan

I've seen better days I know it's true

Find my purpose when I'm with you

No lies, cause time flies

We both know, we both know baby

Cold eyes won't melt away, the fear won't disappear

So I go underground

No lies, cause time flies

We both know, we both know baby

Cold eyes won't melt away, the fear won't disappear

So I go underground

No lies, cause time flies

We both know, we both know baby

Cold eyes won't melt away, the fear won't disappear

So I go underground

Is there no fate but what we make?

Fear is the fire that lies beneath
